**easyPROTECT: «Budgetary protection»
deal with life's hazards**

Sometimes life throws challenges at us: a redundancy for economic reasons or the death of the policy holder can lead to significant losses in income for the spouse or family. We know that life can deal some heavy blows and will reimburse you your monthly insurance payments:

- ✓ during an unemployment period attested by ADEM of up to 6 months;
- ✓ in the event of your death, your relatives will benefit from a premium reimbursement of 12 months.

easyPROTECT: choose your payment plan

Opt for monthly instalments of your insurance premiums without incurring any additional fees. All your contracts are combined and payment is consolidated into one single payment date. In the case of monthly instalments, a direct debit authority will make life a lot easier for you: you will no longer have to remember deadlines and unwelcome financial surprises are a thing of the past!
